

# BIOS: A JOURNAL OF BIOLOGY

TriBeta believes that research is not finished until its results are shared with others. To promote that goal and assist students in learning how to complete the publication process, the society offers its members the unique opportunity to publish their undergraduate work in the pages of its journal, BIOS, which has been in publication since 1930.

BIOS has a three-fold purpose:

- to publish matters that pertain to the affairs of the Society,
- to publish articles by members,
- and to publish articles that will be of general interest to biologists.

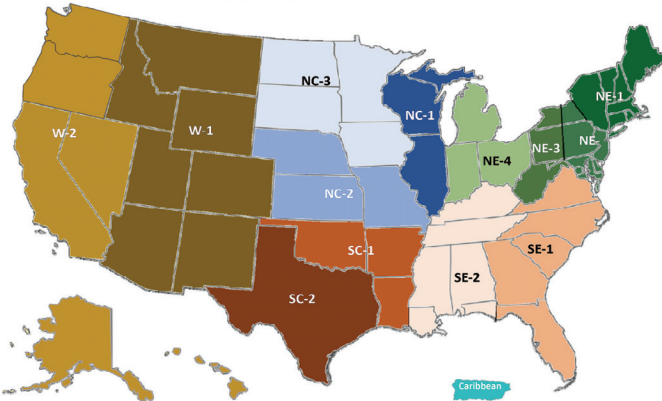

## EXTENDING THE BOUNDARIES OF HUMAN KNOWLEDGE

## CHAPTERS & CLUBS

Individual membership in TriBeta is through a chapter or club on the campus of a four-year or two-year accredited college or university. There are more than 650 chapters across the United States and Puerto Rico divided into 12 districts, offering their members activities and experiences that enrich and extend, but do not duplicate the primary requirements for the biology major.

Visit [www.tribeta.org/chapters](http://www.tribeta.org/chapters) for a list of chapters & advisors.

**Beta Beta Beta**  
BIOLOGICAL HONOR SOCIETY

Beta Beta Beta has been helping students extend the boundaries of scientific research for generations.

Founded in 1922

## ABOUT TRIBETA

Beta Beta Beta (TriBeta) is an honor society for students, particularly undergraduates, dedicated to improving the understanding and appreciation of biological study and extending boundaries of human knowledge through scientific research.

Since its founding in 1922, more than 300,000 persons have been accepted into lifetime membership, and more than 650 active chapters exist today throughout the United States and Puerto Rico.

Each year TriBeta hosts 12 district and regional conventions where members have the opportunity to present their research and network with other like-minded students from other institutions. National conventions are held biennially in late May, early June.

## WHY BECOME A MEMBER?

TriBeta not only helps connect you to a community of biology students, but membership also has **many** other benefits!

Research scholarships and travel grant opportunities

Gain experience in research proposal writing

Present research at district & national TriBeta conventions

Research based awards given annually

Free online subscription to BIOS, our online journal

Submit your undergraduate research to BIOS for publication review and consideration at no cost

Leadership, Service, and Social Opportunities and more

*"If you join this group, you will get so much support and information. You will get to network with upper class students who've already gone through the courses you may be starting as a newer student. You'll also get one-on-one time with some amazing professionals working in the field who are always willing to share what it took them to get to where they are in their careers."*

Hailey K., TriBeta member of the Sigma Omega Chapter at St. Leo University

## GRANTS & AWARDS

Grants & awards are given annually to encourage students to do their best research.

### Undergraduate Research Grants

Through the BBB Research Foundation, TriBeta supports selected research activities by undergraduates who are regular members of TriBeta. Applications are accepted in September each year with funding ranging from \$250 - \$1500 per project.

### McClung Award

The McClung Award is for the most outstanding paper published in BIOS each year. All papers published in BIOS are automatically reviewed by the McClung Committee which announces the award in January of each year.

### Frank G. Brooks Award

The Frank G. Brooks Award is for excellence in undergraduate research presented in an oral session at either a district or national meeting. The district awards are given annually in each district and the national awards are given biennially at national meetings. Paper sessions are judged by a panel of faculty, chapter advisors, and/or national officers. District awards include a \$900 travel stipend to attend the national convention.

### John C. Johnson Award

The John C. Johnson Award is for excellence in undergraduate research presented in a poster session at either a district or national meeting. District awards are given annually in each district and national awards are given biennially at national meetings. District awards include a \$900 travel stipend to attend the national convention.

Beta Beta Beta is a non-discriminating organization that does not consider age, race, color, creed, sex, national origin or sexual preference.
